They pro-pose to keep a full stock of everything pose to keep a full stock of everything usually found in such establishments, and will sell at the lowest possible rates. Orders from country merchants will receive prompt and careful attention. There really seems to be no necessity for sending away for any article in this branch of trade, when the demand can be folly met right at home. It is sound policy to encourage home unautactures; therefore, we hope to hear that our friends, Reld & Roemer are literally orders with orders. are literally overress with orders.

RESUMED BUSINESS .- The many friends of Louis Kellar will be pleased to learn that he has opened a refresh-ment saloon a few doors above the "Old Home," on Market square. Mr. Kellar was noted in days of yore as a kellar was noted in days of yore as a caterer for the public palate, both in cating and drinking, and his fame is ment of Tollet articles, Perfumery, Combs, Hair Brushes, Cosmetica, Pont coafined alone to the denisens of our city. GOOD TEMPLARS' SUPPER .- The result of the extensive preparations that have been making for several weeks in getting up a grand entertainment, will be seen this evening at the Templars' Hall, on Main, between Monroe
and Quincy streets. We think we are
safe in saying that the affair will be a
superior one in every respect, as the
parties who have been engaged in it
from the beginning, know how such from the beginning, know how such things should be done, and feel a deep interest in its success. We trust they will be rewarded to night for the trouble and labor to which they have been subjected, with a full houseland a hungry crowd. Besides the attraction of a well spread board, the installation of officers of the Lodge will take piace, which will, no doubt, prove interesting to all who have not previously witnessed the ceremony. Let there be a full turn out. The cause is a good one and should be sustained.

RIVER NEWS.—Yesterday was pro-foundly dull on the landing. Not an arrival nor a departure have we to York, while going from one of the princhronicle. We called at Capt. By a dispatch from Capt. Jack Harrisen, we learn that he will be here this morning, and will take the New State to Cincinnati, leaving this evening, by water, as far as he can, and on the ice, if necessary, the balance of the way. We need not commend the Captain and his craft to our people, for are they not known and read of all men? Are not their deeds and qualities written in the eds and qualities written in the the chronicles of steamboating on the Upper Ohio?
